

Sonali Surwade

sonalisurwade07@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

SUMMARY

Full Stack Developer (Final-year BCA Student) with internship and project experience in Node.js, React, MongoDB, SQL, Express.js. Proven ability to deliver scalable web applications, optimize database queries, and deploy production-ready solutions. Strong problem solver with a passion for building real-world products.

EDUCATION

Sant Gadge Baba Amravati University
Bachelor of Computer Application (BCA)

2023 – 2026

SKILLS

Programming & Web Development: JavaScript (ES6+), Node.js, React.js, Express.js, HTML5, CSS3
Databases & Data Management: SQL, MongoDB, Express.js, data modeling, scalability, performance optimization
Cloud & DevOps: Docker, Kubernetes, CI/CD pipelines
Software Engineering: Full Stack Development, API design, application security, debugging, testing
Systems & Tools: Git, GitHub, containerization, version control

EXPERIENCE

The Entrepreneurship Network (TEN)
MERN Stack Developer Intern

Sep 2025 – Dec 2025

- Built and deployed full-stack applications using Next.js and Node.js, improving average load time by 30%.
- Designed reusable UI components, reducing new feature development time by 20%.
- Integrated automated ML training pipelines, ensuring accurate and optimized weekly skill recommendations.

PROJECTS

SkillRec | *React.js, Express.js, MongoDB, Node.js*

GitHub

- Developed an automated skill-gap analysis engine, reducing manual career mapping effort by 50% through AI-driven insights.
- Integrated MongoDB, React, and AI-based skill classification for data-driven career planning.
- Optimized MongoDB queries and implemented indexing, decreasing recommendation fetch time by 40%.

SigmaGPT | *(React.js, Node.js, Express, MongoDB, OpenAI API)*

GitHub

- **Frontend Development:** Built a responsive, ChatGPT-style web application utilizing React.js to create a dynamic user interface featuring full Markdown support for rendered responses.
- **Backend Architecture:** Engineered a scalable backend infrastructure with Node.js and Express.js to efficiently manage API routing and handle communication flow.
- **Database & API Integration:** Integrated the OpenAI API to generate intelligent, context-aware responses and utilized MongoDB to securely store and manage chat data histories.

Airbnb Clone | *Node.js, Express.js, MongoDB*

GitHub

- Developing a full-stack web application inspired by Airbnb, enabling users to seamlessly browse, create, update, and delete property listings.
- Designing and implementing RESTful APIs using Node.js and Express.js to handle server-side logic and routing.
- **API Security & Validation:** Designed and implemented robust RESTful APIs integrated with Joi validation to enforce strict server-side data integrity and built comprehensive error-handling middleware to ensure application stability.

LEADERSHIP EXTRACURRICULAR

E-Cell, IIT Bombay | Campus Ambassador

- Represented the Entrepreneurship Cellof IIT Bombay, Promoting entrepreneurship initiatives among university students
- organized workshops and events to foster a startup culture and enhance student engagement.
